

The current scholarship process at MJCET begins with visiting the <https://telanganaepass.cgg.gov.in/> , where students must apply for the scholarship either online or through the nearest MeeSeva center. After registering using Aadhaar and mobile number, students fill in their personal and academic details, upload the required documents, submit the form, and take a printout. The second step is to visit the MJ Scholarship Portal, register or log in, fill out the application, and refer to the updated list of required documents. These documents must be printed, signed by any faculty member, and stamped by the respective Head of the Department (HOD). Once uploaded, the documents are verified online through the MJ Scholarship Portal. After successful online verification, students must visit a MeeSeva center for biometric verification. Upon completion, they receive a biometric slip, which must be uploaded back on the MJ Scholarship Portal to book an appointment for the final submission of hard copies. On the appointment date, students must submit the hard copies of all attested documents and the filled scholarship form to the Academic Section of MJCET. The fee for O.U. Common Services is ₹2,500 for B.E. students and ₹4,500 for M.E. students; a Xerox copy of the paid challan must be included. All Xerox documents must be attested by either the HOD or a Gazetted Officer, and a certificate from the HOD confirming at least 75% attendance is also required. To be eligible, students must be enrolled in a full-time B.E. program under Osmania University, belong to SC/ST/BC/EBC/Minority/Disabled categories, have a parental income less than ₹2,00,000 (for SC/ST) or ₹1,50,000 (for BC/EBC/Minority), and maintain a minimum of 75% attendance. After the college verifies the submitted hard copies, the application is forwarded to the District Welfare Office (DWO) for final sanction. In case of rejection, students should ensure that documents were uploaded correctly, verify eligibility, and contact the college scholarship coordinator or raise a grievance on the ePASS portal.
